

Supplies List

At the high school level, there is not a clear supplies list. Each grade, course and teacher may require different materials. For the first days of school, please send students with a note pad, pen or pencil to record materials needed for the course. Most teachers will handout a syllabus with the course requirements and materials needed.

Some courses come with class and material fees. This will be covered in the class syllabus. Fees are to be paid to the Treasurer's Office after the first few weeks of school.

At one point in your student's high school career, they will require a graphing calculator. East High School understands that this may be an expensive purchase for families. If you need help with this or any other school supplies, please contact the Student Assistance Fund, SAF, in room 130. All students requiring some assistance must fill out an application and can be denied assistance based on failure to comply with rules, poor attendance and poor use of materials.

In some cases, graphing calculators are on sale. Most major retailers, Amazon, office supplies stores have back to school sales on these calculators. The standard graphing calculators used at the high school level are:

Texas Instruments model number 83 or TI-83

OR

Texas Instruments model number 84 of TI-84

Either one will work.

Below are basic supplies for the high school level; please note that this list does not account for all courses, students, or teacher requirements.
