

Summer Assignment for AP Calculus AB & BC :

Due 1st day of school August 21, 2018. You will have a test over this material within the first week of school.
Plan on spending several hours completing this. Don't wait until the last minute!!

Purchase the book: Barron's AP Calculus (any edition of this book is fine). This is the only book you will need to purchase for this course.
In the Topical Review and Practice Section of the Book:

- Read all of **Chapter 1 Functions** and complete all Practice Exercises at the end. This will be turned in, so either work in the book and tear the pages out, or do it on a separate sheet.
- Read all of **Chapter 2 Limits and Continuity** and complete all Practice Exercises at the end. This will be turned in, so either work in the book and tear the pages out, or do it on a separate sheet.

Review sessions before the first day of school will be communicated through Schoology and Infinite Campus messenger.

If you have any questions, contact your teacher.
