

To the families of East High Class of 2023,

Your child's senior year is quickly approaching and East Angelus Yearbook would like to help get you started thinking about senior photos. The list below represents the **approved photographers** who are familiar with the requirements for your yearbook picture. Of course, you are free to use any photographer, but please be aware of the photo requirements and deadline.

After selecting a photographer, make appointments no later than mid-**SEPTEMBER**. Most photographers require at least four weeks for production and seniors need time to select the appropriate pose for the yearbook based on the requirements attached.

It is your responsibility to upload your senior's photo, however, some of the photographers listed below will upload your photo to the yearbook software for you. Please be sure to check with your photographer to make arrangements for uploads.
