

2024-2025 SCHOOL PROFILE

In an age which often seems careless with tradition, East prides itself in its long-standing educational service to the Denver community. Few buildings are capable of eliciting awe, but the striking East building, located in the City Park setting, offers beautiful landscaping and renders an aesthetic experience. East remains a model of a highly mobile but integrated community which allows its students to experience people of different cultures, races and economic backgrounds. Since 1925, when it first opened, East has fared well in academic and athletic competition with other high schools in the metropolitan area. Its theatre program, music performance, both vocal and instrumental, student publications, robotics, ROTC unit, speech, DECA, United Nations, and Constitutional Scholars teams, among others, bring a feeling of pride to the East community.

IMPACT

CORONAVIRUS

The 2021-2022 school year at East High School started with in-person classes and no remote learning options. The Class of 2025 was the first group at East High School to experience an uninterrupted year without any COVID-related disruptions.

STATEMENT REGARDING 2022/2023 GUN VIOLENCE

The Denver East High School community persevered through many traumatic events including four incidents of gun violence during the 2022-2023 school year. As the counseling staff, we saw students struggle with attendance and to achieve the academic success that they previously demonstrated. If there are any inconsistencies or drops in grades or anticipated academic performance, please, consider the context of last school year for our East Angels.

Academic Impact: Using data to look at trends, we saw a marked increase in D's and F's for the second semester of the 22-23 school year. Starting the year with less D's and F's than the year prior was promising. Those D's and F's almost doubled by the end of second semester compared to the previous year.
